

I would like to say that the radio station K Love has a phenomenal impact on people and their communities. They are so positive and encouraging... seriously! If you listen to that station for just a week whenever you are in the car you WILL notice a difference in your attitude. I know it helped me tremendously. Their music and programs are so great. They reach out to the community by offering programs in which people can call in for advise or simply to ask for prayer. Their programs are so powerful and they are just reaching people all over! If K Love is taken off the radio it will be a HUGE detriment to communities everywhere, especially the christians. I know that I will be very, very upset if K Love is taken off the radio---I love their station! PLEASE do not take K Love off the radio, it will be working against the will of God. Thank you for you time, may God bless you and his will be done, Christina Banks
